Amount left	£0

Impact of funding:

Amaven -an organised scheme of work enables members of the PE Team to utilise their accredited teaching & coaching qualifications to further enhance the quality of the teaching & learning opportunities provided for our children. Amaven also provides our assessment system which shows us how our children are developing physically throughout the year. Those children who are less physically literate are then targeted for PE intervention.

Salary - outstanding PE practitioner further enhancing the quality of teaching within our school.

Healthy eating provisions - one food tasting day
bread making day

Our children will be able to make healthier choices relating to their lifestyle, have an understanding of factors to make healthier choices and be better prepared to learn and achieve.

Equipment – equipment purchased to meet the needs of our expanding school/ focussing specifically on age related equipment. Hockey goals, dividers & slalom posts are expensive but meet the needs for our MUGA usage. Allowing all children to be engaged in fun based activities encouraging a less sedentary lifestyle & leading to a more positive and respectful attitude.
